Violence	G	PG	PG13	R
	Page #'s of problems -			

**Review: 1-2 sentences about the plot without giving away the end. Then 1-2 sentences on your personal reading experience and recommendations. The personal experience is much more important than the plot summary.**

Interest Level (Choose all that apply): Elementary      Middle School      High School

Buying Recommendation: For each of the interest levels that you chose, please choose one of the categories below after carefully reading the criteria and then eliminate the others:

ESSENTIAL - every library of the appropriate level should have this book on their shelves. First priority for purchasing no matter how small or large your budget is. As a student - would you spend \$20 of your own money to buy this book for your personal collection?

ADVISABLE - Second tier library books. I still like them, but only buy them after you have stocked up on ESSENTIALS and if your budget can handle them. As a student - would you spend \$15 of your own money to buy this book for your personal collection?

OPTIONAL - Last tier of books to buy. Get these if you have a large budget or if you can find them in paperback. Even use your Book Fair profits and get them for "free". Don't buy them if your budget is very small. As a student - would you spend \$10 of your own money to buy this book for your personal collection?

NO - Usually a book is here because it has described sex, excessive swearing, is poorly written, or for whatever reason I just don't feel like I can recommend it for a school library.
